uvex athletic lite dry//60033

Description

The in accordance with Oeko-Tex® Standard 100 certified uvex athletic lite dry is a very light-weight and dexterous protection glove, which is used for mechanical precision work. The open-pored micro-foam coating is characterized by very good breathability, high flexibility and good grip.

The additional nitrile-dots on the palm ensure very good grip in dry areas, higher abrasion resistance and endurance, which leads to an economical product.

Characteristics

- Very good grip
- Good mechanical abrasion resistance
- High breathability
- High flexibility
- Very good fit
- Very good sense of touch and dexterity

Applications

- Precision assembly
- Control work
- Sorting work
