

## Product information Mechanical risks

### uvex athletic C XP//60037

#### Description

The uvex athletic C XP is – despite the high cut level C – a very light cut protection glove. The flexible and breathable NBR-foam coating ensures very good grip and mechanical resistance. The thumb crotch reinforcement leads to higher tear protection and thus longer product life which has a positive effect on profitability. The high wear comfort and flexibility ensure usage for multifunctional applications. The uvex athletic C XP is certified according to Oeko-Tex Standard 100.

#### Characteristics

- cut protection safety glove with NBR foam coating
- highly durable NBR foam coating for outstanding mechanical resistance and increased product life
- very good cut protection (level C) thanks to HPPE/glass combination
- reinforced thumb area
- good grip in dry and slightly damp areas
- highly breathable
- very good tactile feel
- very good fit
- highly flexible

#### Applications

- Automotive industry
- metal industry
- packaging

EN 388:2016

4X32C
