- General Industry
- Industrial Cleaning
- Laboratory
- Logistics
- Maintenance
- Medical and Pharmaceutical
- Offshore
- Services
- Ship Building
- Telecoms
- Textile Industries
- Transportation
- Utilities

Product Use

Suitable for jobs related to risks associated with Abrasion, Fogging, Airborne Particulates, Impact, Low light visibility and sunlight/glare

Features & Benefits

Feature

Adjustable nose bridge

Benefit

Three position nose bridge is simple to adjust and keeps eyes centered in the lens, where optical clarity is best. Workers' vision is less strained so they experience less eye fatigue, work more comfortably for longer periods and can more clearly see their work.

Feature

Self-Adjusting Nose Pads

Benefit

Soft, flexible material allows each nose pad to independently conform to the wearer's face, delivering greater comfort,

contact and stability.

Feature

Adjustable Lens Angle

Benefit

Improves safety & reduces fogging! Each temple hinge ratchets to seven positions - 30 degrees of custom adjustability so lens is angled for both optimal eye protection and ideal space for air circulation.

Feature

Temple micro-adjustment

Benefit

A proprietary temple design (patent pending) that allows workers to adjust temple tension anytime, safely and without removing eyewear. Workers can adjust for personal preference or task at hand - a firmer fit for active work or a lighter fit for general wear. The temple arm of the Honeywell Adaptec features a rigid insert that slides to control pressure against the head. Wearer can slide insert from front to back for a firmer fit, or back to front for a looser fit.

Feature

Three Sizes to choose from(Regular, Narrow & Wide)

Benefit

Means the right protection, improved performance and optical clarity for everyone in your workplace regardless of gender, ethnicity or facial features. Honeywell Adaptec is a product that can fit to anyone!

Feature

One Style

Benefit

Means simplicity of stocking and ordering as well as consistent eyewear usage by all workers in your facility. No longer is there a need to stop 3-5 different styles of eyewear from multiple manufacturers.

Feature

Vented, cushioned frame

Benefit

Means being able to see clearly, with less fogging!

Feature

New Honeywell 4A+ Coating

Benefit

The Honeywell Adaptec 4A+ Coating on both sides of the lens (K&N) ensures excellent anti-fog, anti-static and scratch-resistant properties
